

Civil Engineering Designer/Drafter

Water Resources Department

Albert A. Webb Associates is currently seeking a Designer/Drafter in our Water Resources Department.

Typical Job Duties Include:

- Designing, drafting, modeling and creating civil and mechanical drawings.
- Preparing and creating GIS associated exhibits.

Minimum Requirements

- Must be proficient in AutoCAD® software
- Ability to produce drawings, layouts, sketches, maps, and graphic representations of engineering designs using AutoCAD software.
- Good working knowledge of planning and construction documents.
- Excellent technical and communication skills.
- Ability to work independently on several concurrent projects and participate in the entire design process.
- Ability to read, understand and adapt to local agency standards and be able to communicate with agencies and clients directly and effectively when necessary

Preferred Experience:

- Experience in Civil 3D
- Experience in working with ESRI GIS software to assist in the preparation of exhibits using CAD data, aerial photo backgrounds, and GIS data (shape files and geo-databases).
- Experience with public works projects including designing, drafting, modeling and documentation of water, sewer, and storm drainage systems.
